DETAILED ACTION

Oath/Declaration

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not identify the city and either state or foreign country of residence of each inventor. The residence information may be provided on either on an application data sheet or supplemental oath or declaration.

Drawings

2. New corrected drawings are required in this application because submitted drawings fail to meet standards for formality. The examiner cannot follow the meaning of the drawings, understanding of drawings is required for the examiner to fully comprehend the applicant's invention. Appropriate drawing standards can be found under 37 CFR 1.84. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Objections

3. Claim 6 is objected to because of the following informalities: the phrase "performance to radio broadcasting stations and together with marketing information as a further venue of financial return, and its commercial potential whereby simultaneous" appears twice. Appropriate correction is required.
